

United Boca Del Mar Launches New Website

The third application in nine years to build hundreds of townhouses on the Mizner Trail Golf Course is working its way through the P.B. County Zoning Department heading towards the Board of County Commissioners for another vote. The community coalition organized to oppose development and work towards a solution, has launched its new website <http://unitedbocadelmar.org>

Please go to the website to; **sign the on-line petition** opposing development, obtain recent important updates, stay informed, get the facts, join us on twitter, and learn how you can participate in opposing development.

ACT NOW - Sign The On-Line Petition Opposing Development Today!

Please go to the website to sign the on-line petition opposing development (you may also add a comment) which will be sent directly to Wendy Hernandez, the P.B. County Site Planner who has been assigned to review this latest application. Ms. Hernandez will make your petition part of the complete record which will be included in her report to County Commissioners. The Zoning Staff has recommended for denial twice before. The County and our elected politicians must here from all of you.

Our community deserves a solution that preserves our communities open space as it was intended. The last nine years have shown us that these may be the wrong owners, who bought the golf course for the wrong price, for the wrong reasons, at the wrong time.

Their attempt to revalue their land, by giving it development rights it does not have will come at our expense, individually and collectively as a community. Please go to our website, and sign the petition and let them know, we are not ready to give in, or give up.

Please forward this email to anyone who may oppose development but is not receiving these emails.

Thank you,

United Boca Del Mar, Inc.
